27<sup>th</sup> October 2020

Dear Doctor / Pharmacist,

**FluarixTetra in South Korea private market only**

Thank you for your inquiry regarding our FluarixTetra in South Korean market. We confirm that we supply FluarixTetra to South Korea for private market usage only. It was not distributed for use under the National Immunisation Programme.\*

We can confirm that, as of 26<sup>th</sup> October 2020, we have received no reports of fatality in relation to FluarixTetra in South Korea and has had no reports of disruption to the cold-chain in the distribution of its vaccines.

Patient safety is our first priority. We work with the world's leading medicines regulatory agencies (including those in South Korea) on an on-going basis to monitor and evaluate the safety of our medicines and vaccines and will continue to do so.

\*Korea's National free vaccination programme for 17 diseases including influenza.

We look forward to having your continuous support in the future.

Yours faithfully,

Vien Tsui  
Director, Vaccines and Macau Business
