Dear parents,

In a blink of an eye, the second semester has come to an end. This signals the closing of the school term 2014-2015, too. We are thankful for the protection of our Lord in the past ten years, and also the co-operation between parents and staff members. However, here are still some reminders for parents to bear in mind.

**Results of Secondary School Places Allocation**

Our school always values the nourishment of intermediate level students. Most students admitted to our school are intermediate ones. We are grateful that our Lord has given us a batch of high-quality parents and teaching staff, who values and respects the students. This enabled our school to cultivate students with the principle “Trilingual · Christian · Global Education”. Our students can lead a stress-free childhood and at the same time strive for academic excellence. Among the 47 graduates this year, over 30% can be admitted to EMI aided secondary schools, English Direct Subsidy Scheme (DSS) secondary schools, and local secondary schools with EMI classes.

<tr>
<td>✓ EMI aided/ government secondary schools, English Direct Subsidy Scheme (DSS) secondary schools (Leung Kau Kui College, Tang Yuk Tien College, Ma Ko Pan Memorial College, Tin Ka Ping Secondary School, Lee Shau Kee College, Tsung Tsin Christian Academy...)</td>
<td>8</td>
</tr>
<tr>
<td>✓ Local secondary schools with EMI classes (Lui Cheung Kwong Lutheran College, Tuen Mun Catholic Secondary School, Sun Hoi Directors’ College...)</td>
<td>8</td>
</tr>
</tbody>
</table>

Compared with schools which admit tops students and boost academic performance, our school is yet to catch up. However, I truly believe that we have achieved a balance between reality and ambition. P.4-6 students should be prepared that they need to put more effort on their school work, and face the higher demand on homework in terms of quality and quantity.
Good news from alumni
In recent years, principals of various secondary schools praise our alumni for their excellent performances. Graduates from our school have done well in different aspects like languages, science and technology, sports, dancing, 3D animation and so on.

Road safety and etiquette
When students are travelling on public transports like Light Rail and buses, they should be courteous passengers. They should uphold their courtesy and care about the feeling of other passengers. More importantly, they should give their seats to those in need. They should also avoid eating and drinking, chatting loudly and even chasing each other inside the compartment. Parents please note that in public places, every single move of you and your children will be monitored or even recorded secretly by passers-by. Hence, parents please do take up the duty to restrain your children's behavior.

Fetching children by cars
For parents who drive your children to and from school, please pay special attention to the following point: the restricted area near the roundabout outside the school entrance is not for parking. In order to prevent traffic jam, parents please do not leave your car in the restricted area, especially during the peak hours in the morning. The traffic jam has no doubt caused inconvenience to other road users. Hence, if road safety laws are strictly carried out by housing estate staff, our school will be cooperative.

Students’ name tags and socks
Students should wear their name tags in lesson time. It is for our local and NET teachers to call their names conveniently. If you find that your children have lost their name tags, please buy a new one for them. Parents are also welcome to arrange for your children other name tags which are simple and clear to read. On the other hand, P.1-3 students should wear white socks with school logos.

Crossing the roads safely
The majority of our students have learnt to comply with the road safety rules. However, some parents still bring their children to cross the road dangerously. In fact, our students can try to become the teachers and teach parents how to cross the roads safely.
Uneven road surface of the school garden
Our school is not responsible for maintaining the school garden’s road surface. We have transferred the case to the relevant authority. Now, we are requesting the authority to pave the road surface with suitable types of bricks. While waiting for the response, we will carry out a range of safety precautions including safety notices, announcements, setting up restricted area and so on.

Pilot Project on Enhancement of Complaint Management in Schools
Next academic year, all the Lutheran secondary and primary schools will join the “Pilot Project on Enhancement of Complaint Management in Schools” of Education Bureau. We anticipate that this project will formally start in September 2016. This is for the school to handle complaints more efficiently. Details will be announced later.

Self-service Fruit Bar
In the coming school term, our school will set up a self-service fruit bar during recess. We will sell healthy fruit with low price. There is no salesperson in this fruit bar. Students pay the money without supervision. We set up this fruit bar to cultivate students’ self discipline and management skills of their pocket money. We also aim at promoting healthy diet among students. Parents can support us by giving students $2 to $3 pocket money for buying fruits.

Lastly, I wish parents can utilize the long vacation and enjoy the time with your children. May the Lord protect you and your family. P.1-5 students, see you all again in September. P.6 graduates, prepare well for the Pre Secondary One Exam. Do not forget the teaching from our Lord!
